

MODULAR III - V1

Discover the ultimate workstation for setters and engravers: a robust, height-adjustable table frame specially designed for use with a sliding microscope. Up to four containers can be height-adjusted to efficiently organize all your tools and materials. With optional integrated single-station suction, innovative 5D armrests, a technique rail with a practical block system and various holders for handpieces, this workstation not only offers convenience, but also perfect organization for gravers & micromotors.

Don't compromise on your working environment - choose a workstation that supports every facet of your art.
