

## FLOWBOX Open

Optimize your workspace with our Flowbox, which ensures cleanroom conditions up to ISO 14644 Class 5. Equipped with a HEPA 14 category main filter, it combines maximum air purity with an operating noise level of just 36dB to 45dB to create a disturbance-free environment. Thanks to the modular color and size options, the Flowbox can be perfectly adapted to any workbench and room design.

Ensure a working environment that is not only clean, but also flexible and quiet.
