

## MODULAR II

With the MODULAR II for goldsmiths and jewelers, you can design your workplace according to your ideas. The design, workmanship and equipment are all of the highest standard. Set-ups in formations enable completely creative solutions for group workstations.

The sophisticated design of the robust four-legged steel frame with an open side view is perfect for versatile use. Four internal hydraulic cylinders, each with a lifting capacity of 150 kg, telescopically extend the inner steel frame upwards. The drawer containers connected to the top panel are lifted at the same time.

### Product information

**Product category** Goldsmith tables

### Features

<b>Height</b>	900 - 1,200 mm
<b>Armrests</b>	5D Armrest
<b>Table frame</b>	Four-legged steel frame with open side view
