

UNIQUE VII

The "UNIQUE VII" work table is designed for both watchmaking and goldsmith work and has been perfectly tailored to the customer's requirements. The particularly high demands on the technical equipment were realized with a variety of custom-made detailed solutions.

The extremely stable work table made of solid beech and high-strength lacquered surface presents itself in a timeless design. Height-adjustable thanks to electric hydraulics, the elegant four-pillar frame is made of aluminum, which is completely clad in solid wood.
