

Goldsmith's and Cooper's Table

The Hybrid Workbench combines goldsmithing and stone setting in a very compact space. Thanks to the interchangeable worktop, the workspace can be reconfigured in no time—for maximum flexibility with minimal space requirements. In addition, the modular design allows for custom system expansions at any time. It is the perfect solution for anyone who refuses to compromise on precision and efficiency.

Product information

Product category	Hybrid Tables
------------------	---------------

Features

Height adjustment	Electric
Width	Special size
Depth	Special size
Height	800 - 1,200 mm
Table frame color	black
Side cladding	without
Table top equipment	Backsplash I Height 1 cm
Drum trough	Shape: angular
