

UNIQUE VIII

Discover our customized watchmaking table "UNIQUE VIII", specially configured according to a customer's requirements.

This table is equipped with an innovative, removable flowbox table top and offers electric height adjustment up to 400 mm, allowing for optimal ergonomics. The elegantly rounded side panel blends seamlessly into the futuristic design. Wood decor accents and customizable drawer containers round off the innovative appearance while offering practical storage solutions for your tools and materials.

Overall, the table combines functionality with a modern look that is an eye-catcher in any work environment.
